

RED GUARDS NOT NEEDED IN GERMANY

DELEGATES FROM ALL SOLDIERS' COUNCIL TOLD IN REICHSTAG THAT RED GUARDS ARE NOT NECESSARY

SUMMON AN ASSEMBLY

Frederick Ebert, German Premier, States He Is Determined To Summon Constitutional Assembly

Delegates from all the Soldiers' Council met in the Reichstag chamber in Berlin on Friday to discuss the institution of the Red Guards, according to advices received here.

Frederick Ebert, the Premier, declared there was no necessity for the Red Guards. He said:

No anxiety will have no anxiety for the new government because it is sustained by his compatriots of the masses. We were ordered.

Cases of Haste When the armistice was declared in the back area many cases of haste to return home were reported. In Baden and Wurttemberg, the troops streaming from the front constitute a great danger. Negotiations are in progress to obtain a temporary armistice and organize means of transport fully. All soldiers' councils must pledge themselves at the service of the government to hasten demobilization. Democracy can march only if its head is untouched.

Then too we have prospects of getting peace conditions which at least may be somewhat favorable.

If the enemy sees anarchy among us he will dictate conditions which will entirely destroy economic life, therefore go forward to common work for the future.

Resolution Adopted

Resolutions were unanimously adopted that the representatives of the fraction of Greater Berlin should employ all means to maintain order, achieve a social republic, and increase soldiers' pay.

Summons Assembly.

Amsterdam.—Friedrich Ebert, the German Premier, told the *Weserische Zeitung* on Friday that the government was firmly determined to summon the constituent assembly, but that this was impossible, effectively to hold the elections before January by which time the troops will have returned home.

Marschall's Played.

Berlin, Nov. 18.—For the first time since the founding of the German empire the Marschallie was played by a German band heading a procession through Unter den Linden today.

Will Dictate Policy.

Future indications are that Sailors' councils will dictate governmental policies in Germany. The commanding of the constitutional assembly is being urged in diplomatic and political quarters to be affiliated with the present regime and on the ground that it will facilitate peace negotiations.

It is believed that Hugo Haase, secretary of foreign affairs, and Wilhelm Bittmann, secretary of demobilization and transport, justice and interior, are receding from the attitude that the new republic is to be purely socialist. The moderate members of the government are not disposed rigidly to exclude Bourgeois elements from the government. Dr. Carl Liebknecht, the leader of the radicals, is apparently deserted by his former colleagues.

Must Wait to Convene.

Secretary Haase said today: "Every four months a new problem. The National Assembly can be convened although voting on all questions arising through a proxy."

Col. Edward M. House, Secretary of State Robert Lansing; Secretary of War Newton D. Baker; One other to be selected who may be either former President Wm. H. Taft, Elihu Root or a "dark-horse."

The names of Justice Brandeis, Henry Morgenthau, Chas. E. Hughes, Secretary of Agriculture Houston and several others have been eliminated overnight.

The president has fully decided that he will go across on a liner and not a battleship, although his naval advisors have been trying hard to have him agree to travel on one of the newest and largest dreadnaughts.

Up to the present time he has refused to allow any newspaper representatives to accompany him, although there still is a suggestion that the ones representing each of the three large press associations be included in the party. All of the plans for the trip are about completed and it was stated today that a complete announcement was likely before the end of the week.

ENLISTED MEN WILL BE TAUGHT TO FLY

Commissioners Are Being Discussed in Washington Circles

BY INTERNATIONAL NEWS.

Washington, Nov. 19.—Enlisted men in the American aero squadrons in France are being given an opportunity to learn to fly and to qualify as pilots. Heretofore a trial training and flying has been confined exclusively to officers and cadets selected in the field of battle.

The new order calling the enlisted men to training provides for the selection of one man from each squadron who has shown particular aptitude in repairing and handling planes on the ground. It was hailed with joy in all the air camps by the men, of whom the great majority aspired to become flyers.

The enlisted men who now qualify as pilots will, it is presumed, be commissioned as lieutenants.

ASQUITH DOES NOT FAVOR ELECTION IN BRITAIN AT PRESENT

BY ASSOCIATED PRESS.

London, Nov. 19.—Herbert H. Asquith, former Premier, in delivering an election speech at Westburyton tonight, said that while the whole future of international development of the world lies in the crucible, it was both a blunder and a calamity that the country should be plunged into the tumult of a general election.

He said that the men most entitled to express an opinion of the reconstruction of affairs, the soldiers in the field, would be unable to vote.

He said he was prepared to give full support to any government which grappled with the problems of reconstruction on progressive lines but he added: "When the lion and the lamb lie down together, it sometimes is found that the lion has not lost its taste for live mutton."

Commissioners Are Being Discussed in Washington Circles

BY INTERNATIONAL NEWS.

Washington, Nov. 19.—It has been decided that the United States will be represented by five commissioners in the peace negotiations at Versailles. The official announcement of the make-up of the delegation will be made in the very near future. During the last eight hours there have been a number of changes in the proposed personnel.

Today the line-up was as follows:

President Wilson, who will head the American delegation but who will not remain through the entire conference although voting on all questions arising through a proxy;

Col. Edward M. House,

Secretary of State Robert Lansing;

Secretary of War Newton D. Baker;

One other to be selected who may be either former President Wm. H. Taft, Elihu Root or a "dark-horse."

The names of Justice Brandeis, Henry Morgenthau, Chas. E. Hughes, Secretary of Agriculture Houston and several others have been eliminated overnight.

CANCEL ORDERS FOR NAVAL ORDNANCE

BY ASSOCIATED PRESS.

Washington, Nov. 19.—Naval ordnance contracts amounting to \$421,308 have been canceled since hostilities ceased, it is announced at the naval ordnance bureau today.

The new order calling the enlisted men to training provides for the selection of one man from each squadron who has shown particular aptitude in repairing and handling planes on the ground. It was hailed with joy in all the air camps by the men, of whom the great majority aspired to become flyers.

PROMINENT MORMON SUCCUMBS TO ILLNESS

Salt Lake City, Nov. 19.—Joseph F. Smith, president of the Church of Jesus Christ of Latter-day Saints (Mormon) died at his home early today after a long illness. Death was due indirectly to a paralytic stroke suffered last April. Notwithstanding his illness President Smith attended the recent semi-annual conference of the church held the first week of October and spoke strongly against polygamous marriages which it was rumored were surreptitiously performed during the last few years.

HUN OFFICERS CLAIM THAT AMERICA'S ENTRY INTO WAR TURNED TIDE

BY ASSOCIATED PRESS.

With the American Army Northwest of Verdun, Nov. 19.—German officers who met American forces at Boulogne say they were beaten because they were not prepared to defend themselves in Germany. They say that news has been kept from them by Lieutenant Wm. Schmidt told the Americans their entrance into the war turned the tide against Germany. He said the Germans generally did not hold a grudge against Americans, or Americans, although some blamed the Americans for their defeat.

With the arrival of the third division of Confidants Saturday afternoon, church and school bells were rung and civilians turned out in force to welcome the Americans. Confidants is damaged but little, with the exception of the railroad where bombers put out of commission one of Germany's main lines of communication from Metz to the front opposite the Americans.

WANTS PRIVILEGES.

He asks permission for German owners to exploit as heretofore the coal, potash and iron mines and the general free use of the Rhine for transportation within the old boundaries of the German empire.

The foreign secretary also asks permission for free navigation by way of Rotterdam and the coast for the provisioning of Germany; the continuation of industrial pursuits on the left bank of the Rhine for the use of the remainder of Germany.

To LEVY CUSTOMS.

The old frontier of the empire, including Luxembourg, Dr. Solf suggests, is to be regarded as the customs boundary, and customs duties are to be levied by Germany.

Dr. Solf declares that without these modifications Germany will advance toward more and more Bolshevik conditions which might become dangerous to the neighboring states.

BY INTERNATIONAL NEWS.

London, Nov. 19.—Anti-Jewish outbreaks with numerous fatalities to Jews have occurred in several towns in the western part of Polish Galicia. According to the Jewish Press Bureau in Siedlce, Polish legions killed six Jews, the bureau advises state, while anti-Chorvachow, no Jews were slain. Other anti-Jewish outbreaks have occurred, it is stated at Domnowa, Jawarino and other cities.

BOLSHEVIK-ARMY HAS ATTACKED ALLIES' ARMY

BY ASSOCIATED PRESS.

Archangel, Nov. 18.—Bolshevik forces have resumed their attacks against the American and British positions at Tulugus on the Dvina River. They have been repulsed with severe losses.

On the morning of November 11 after a heavy bombardment from their gun-boats and barges in the river the Bolshevik infantry scanned the allied barbed-wire entanglements and succeeded temporarily in reducing the gun emplacements of the artillery.

Hotel Wisconsin MILWAUKEE, WIS.**FARM HOUSE BURNS: OCCUPANTS ESCAPE IN NIGHT CLOTHES**

Sometime after one last night, the whirling of a pet dog awoke the members of the John Ness family, residing on a farm, two and a half miles south west of Arton to find the building in flames. The four members of the family, Tom and Gilbert Ness, and their sisters Misses Minnie and Jessie, rushed for the stairway seeking an exit. A doorway from which flames were pouring was the only exit and the four were forced to break a window and climb through. They were clad only in their night garments and the fire had spread so quickly they could not even save anything. Even the faithful little dog that woke them, was burned to death. Mr. and Mrs. John Ness moved to Beloit some months ago but the two sons and their sisters remained on the farm. The loss is a total one with some insurance. How the fire started is a mystery as the nearest stove light off. Apparently it had its origin in the region of the kitchen as that portion of the house was destroyed first.

When you think of insurance think of C. P. Burns, Adv.

MATRIMONIAL

Olestad Dahl. The many friends of Edward Dahl will be surprised at the news of his marriage to Signe Fristad in Chicago Monday morning at seven o'clock. Mr. Dahl expected to leave with the draft of last Thursday but owing to the signing of the armistice delayed the day in the above-mentioned manner. He had wished that their friends go with them in their home on the farm next fall. They are spending their honeymoon in Shropshire.

JUDGE MAXFIELD FINES TWO JOHNSON BROTHERS

They got drunk together, but for several good reasons John Johnson escaped with a smaller fine than his brother Ole Johnson. John told a straightforward story to the Judge in the Municipal court, and as a result was given a fine of fifteen dollars and costs or twenty days. Ole was next and he did not fare as well.

Pete Deane, charged with drunkenness, was taken before Judge Maxfield and had his case postponed for six months. Ben Lewis, another stranger drew a fine of twenty dollars and costs or thirty days on a charge of drunkenness.

LEASED WIRE WILL FURNISH GAZETTE LATEST A.P. NEWS

The full leased wire telegraph news report of the Associated Press has been arranged by the Gazette and will become a part of its daily service on Tuesday, November 21st.

Arrangements for this big news service has been under consideration for considerable time but adoption of news equipment of such dimensions has required considerable thought and care, but the management has felt that the growth of the field and the need of a wider news service is necessary to meet the intelligent demand of the Gazette readers, and it is a pleasure to announce that arrangements for the service have been completed at this time.

The Leased Wire Service means that a telegraph operator takes a continuous news report over the wire in our office, beginning at 7:00 a.m., and running through until 5:30 in the afternoon. A constant stream of news comes from all over the world including complete market reports from various Market Centers, New York Stock Exchange reports, cotton markets and copper markets.

The Gazette has been a member of the Associated Press for a number of years and has been receiving a long distance telephone report which has covered the field very acceptable. However, the amplified report will give to the readers of the Gazette the very best in telegraphic news service. The Associated Press has ever been known as a conservative agency, never distributing reports unless they had exhausted every means of verifying them.

The Gazette invites the public to visit the plant and inspect the many new devices used in progressive newspaper making.

CHICAGO MARKETS.

Chicago, Nov. 19.—Washington took cognizance of an emergency in the packing house labor situation by urging the country to reduce hog shipping one-third until these plants can be supplied again.

F. S. Snyder, chief of the meat division of the food administration, wired Everett C. Brown, chairman of the hog market stabilization committee, to that effect, adding: "The Secretary of War has been requested to release from confinement on the strength of an urgent and necessary of vital importance to the maintenance of overseas meat shipments all enlisted men in this country who have packing house experience. Also that enlisted men abroad with similar experience be given preference in industrial release on the ground that these men are at the moment of greatest importance than in any other industry."

Actions should be held back, because under no circumstances will there be enough to meet foreign demand as soon as shipping can be arranged, which will be within thirty days. We will then be able to export all surplus hog product, which can properly be spared from this country.

If the country will retain pigs until January 1st, Dec. 1st, they will realize \$1.20@1.50 instead of \$1.1@1.4, the present market is the opinion of Mr. Brown.

Packers are making strenuous efforts to clean up the crop, but the country is crowding them and the only prospect of relief is accession to the ranks of packing house labor by release of enlisted men.

TEARS, IDLE TEARS.

"It is with a feeling almost of nausea that the American people to say nothing of the Allies, will hear the now reviled pro-German press telling of the way the German envoys 'wept' when they heard the terms of an armistice with which they had been familiar before they started. Dr. Solz, in his weeping protest, excites the same feeling of repulsion. It is not record that the Belgians, Serbians, or the people of northern France, wept thus unworthily and God knows they had something to cry for," says an Eastern exchange.

"But German tears are always near the surface. There is a sentimentality about the Germans which is typified by the 'Sorrows of Werther' which so excited the healthy ridicule of Thackeray long before the war machine was running Germany. It is interesting to note how true to type the German offenders are. If a German knocks his opponent down in a fight, he is not content unless he kicks him in the face. If an American knocks a German down, he helps him to his feet again.

"It is our business now to help him to his feet again, but we should at least be spared those maudlin exhibitions. It is no part of our duty in assuming a neutrality for Germany, to spare the feelings of people who in their hour of triumph were utterly destitute of feeling or humanity. Tears are a sad thing, especially with men of our kind. They are shed in secret, and only under the greatest stress of sorrow. They are not to be turned on tap to wash out the infec-
tuous stains of innocent blood. The German hands may be used to wipe the eyes of the German people, but they can only make those eyes redder than ever.

"If we have tears to shed, we will reserve them for the German victims in Belgium and elsewhere. It is the world's disagreeable task, unwelcome, and unsought, to take hold of these sniveling cowards and make men of them. There must be no sentimentalism about it; and the report that the Crown Prince of Germany 'wept' when he signed away his rights to an already vanished throne merely makes us sick. Handing the German in a dirty job, but it has to be done, for his own sake than for the future security of mankind. He is merely crying because he is hurt, not because he is pitiful.

"It is still good theology that forgiveness involves contrition, reparation and reform. Over a long period of years, to be shortened, it is hoped, by German good behavior, the dreadful condition they have created by their own wickedness, conceit, ambition, greed and folly can be in some measure alleviated. Our dead can never return to us, but they have not died in vain."

GOING SOUTH.

Within the past forty-eight hours one of the strange freaks of bird life has been witnessed by hunters and residents near Lake Koshkonong, when, as though at a blast of a whistle, the feathered visitors started on their southern pilgrimage. Not by the few score, but by the thousands, with no sound but the faint rustle of their wings as they flitted through the sky in the early evening light dying in the face of a south or west wind and not waiting for the northern blasts to hurry them on their journey. Do they perceive the early approach of winter and snows and ice and frosts, or is it merely a precautionary measure on their part? Opinions differ as to whether the winter will be cold and severe or not. One authority states that the fur-bearing animals have not yet put on their winter coats as thick as usual, but that far we have not heard from the old-timer who always could tell the weather by the wild goose bone. The muskrat houses seem as high as usual, while the squirrels have made many storehouses in tree tops for reserve food supplies which would tend to the belief of deep snows, but who knows what Dame Nature has in store for us any more than we could predict a few weeks ago that the war would end and our boys be home within a few months?"

THE DAY OF PEACE.

The signing of an armistice is not ordinarily accepted as a definite end of a war. But in this case the treachery and dirty perfidy of the Huns have called for the imposition of most unusual and extraordinary safeguards. With an angry people at their back and the armed forces of civilization before them, the Hun legions are cornered. The war is over.

The voice of America will not again be trifled with and flouted. When our representatives speak, they will be listened to. Our power to rise within a short time and exert an overwhelming force has been abundantly demonstrated. The notion that the United States is an easy-going, money-loving nation, that had no sense of pride, no power of resistance, no force to make its principles and standards felt, has been shattered.

The most frightful threat the world ever met since the Dark Ages has been challenged. Cruelty, rapacity, lust, rapacity, brutality, have been deposed and driven into their dens. The world is once more free to go the way of honest and peaceful industry.

A great military record has been made. Our boys have proved that the fiber of the nation has not softened. The feats of our soldiers compare with anything that can be found on the most golden pages of history.

A glorious record of civic service has been achieved. Our people have proved their willingness to sacrifice, to place country and community first, and their own personal welfare last.

Our losses, it is true, have been irreparable. The noble lives of thousands of young men have passed

from us. But all human advance is gained at the cost of similar sacrifice. The blessings we enjoy today were all paid by the blood and tears of previous generations.

We lay our reverent tribute of gratitude at their feet, and enter the new door of opportunity they have opened for us.

Italy is eminently satisfied with the outcome of the war, thank you very kindly. They have regained the provinces that Austria took from them a good half century or more ago. Students of history will know that Aeneas escaped the walls of the Dido only to go to Italy and start the preliminary foundation of the present government although centuries behind the present conditions.

Holland is having a fine time over the arrival of William Hohenloher and his entertainment in a castle, and whether they want him or not. Holland has signified he would like to go back to Germany to aid in putting down the rebellion of mutinous troops so why not let him go?

Russia may emerge from the chaos without the aid of any outside power but the chances are they will not need food and an absolute defeat for the Bolshevik government before anything can be done for them in a definite way.

Rock county farmers who have had banner crops this past two years need not think that Dame Nature will be less sparing the coming year and should be ready to do their share in furnishing the food supply of the world.

The chief difficulty in the labor situation appears to be the large number of people who know too much to work with their hands, and who don't know enough to work with their brains.

Germany a pawn can take a King at any time. No need for any more international chess tournaments. The Pawn wins.

THE TEST.

Gehenna is in the balance. The great test of the ages has come. We have often heard it advertised from the soap box pulpit. "God sent us to make good." We have a serious mission. For it to perform. And we hope it will live up to its press notices. And not disappoint us. We are depending upon it. And we must have the occasion. Somebody is going there soon. By unanimous consent.

By the armistice terms, the allies take practically everything from the Germans except their paper trousers.

THE TEST.

It was a Topeka boy who wrote home from France that there must have been ladies present when General Sherman gave his weak definition of war.

And this is the time of year when a man who cranks his own car warms up more quickly than the engine does.

"M. P." on a soldier's sleeve means Military Police, not Mother's Pet. If you don't believe it, start something.

Every revolution seems more lady-like than the last. The people have learned that they can abdicate without shooting up the place.

That Around the Place Table.

Misfortune will turn downward instead of upward.

Shining swords, crowns and scepters will be checked in the anteborder.

Nobody will be allowed more than one helping of captured colonies.

Anybody climbing on the table to grab the gravy will be sent to bed. The orchestra will not play "The Watch on the Rhine."

"There will be no cabaret and the sultan of Turkey will not be allowed to dance the hootchie.

They shall meet, but they shall not kill him. Ferdinand the Botanist will not be there.

Ferdinand and Trotzky will have to wait until the second table.

Anybody sitting at the table will not be responsible for hats, umbrellas or overcoats belonging to Germans.

One of the annoyances of peace will be Uncle Henry will stop his war work and start a quantity production of slavers again.

"Another good cure for tonsillitis," says John, our elevator man, "is a nice, soft sleeve wrapped around your neck, with a woman's arm in it."

Now prunes will have to advance on account of the peace."

Just Folks

AN APPLE TREE IN FRANCE

An apple tree beside the way,
Drinking the sunshine day by day,
According to the Master's plan.
Had been a faithful friend to man.

It had been kind to all who came
Nor asked the traveler's race or name.

But with the peasant boy or king
Had shared its blossoms in the spring.

And from the summer's dreary heat
To all had offered sweet retreat.

When autumn brought the harvest time,
Its branches all who wished might climb

And take from many a tender shoot

Its rosy-cheeked, delicious fruit.

Good meat by careless speech or dead,

Having caused a neighbor's heart to bleed.

Wrong has been done by high intent.

Hate has been born where love was meant.

Yet apple trees of field or farm

Have never done one mortal harm.

Then came the Germans into France

And found this apple tree by chance.

They spurned its blossoms in the spring.

They heard the songs the thrushes sing.

They rested in the cooling shade.

Its old and friendly branches made

And in the fall its fruit they ate.

And then they turned on it in hate,

Like beasts, on blood and passion drunk.

They howed great gashes in its trunk.

Beneath its roots, with hell's delight,

They placed destruction's dynamite.

And blew to death with impish glee.

Men may rebuild their homes in time.

Swiftly cathedral towers may climb.

And hearts forget their weight of woe.

As over them life's currents flow.

But this their lasting shame shall be:

They put to death an apple tree.

**HARTWELL TODD HAD
NARROW ESCAPE FROM
DEATH LAST EVENING**

Local Contractor Struck by Speeding Auto on South Main Street and Sustains Severe Injuries.

Wine, women and an automobile were evident in the case of Hartwell Todd, a contractor living at 845 Walkerton Street being nearly killed about six o'clock last evening.

Mr. Todd was driving north on Main street from Spring Brook when his delivery wagon was struck from the front by a speeding auto bearing the license number 114-55755. Mr. Todd was thrown from the wagon and did not revive until he was in Doctor Felt's office having his wounds cared for. It was necessary to take several stitches in his scalp, his nose was badly cut and both of his eyes were terribly injured. He also suffered an injured back.

The police were notified and Chief Champion went to the scene and found the car, an Oldsmobile with which was dialed, badly broken and one wheel blown. A search of the car was made by the chief and a chauffeur's license issued in Illinois to Bert Thomas, was found, a letter addressed to Mert Melenberg of Rockford and an empty whisky flask.

Eye witnesses to the accident claim that the car belongs to a Rockford Taxi company and that the driver had been intoxicated had been under and was intoxicated in the rear seat and it is alleged that they were also under the influence of liquor and were on a wild joy ride. They were going south on Main street on the wrong side of the street.

A search of the car was made by the chief and a chauffeur's license issued in Illinois to Bert Thomas, was found, a letter addressed to Mert Melenberg of Rockford and an empty whisky flask.

Chief Champion reached the scene shortly after it happened and that the car had been brought to the city to secure some liquor and that while here he also got some. It is the opinion of the chief that all in the car were drunk at the time of the accident.

At first it was reported throughout the city that a man had been killed by a load of joy riders from Rockford. Several people who were on the scene shortly after it happened were of the opinion that Mr. Todd was killed. However he is able to be about this morning, but it will be several weeks before he will be able to resume his work.

Chief Champion stated that it was his belief that the car belonged to a Rockford Taxi company and that the driver had brought the man and woman to this city to secure some liquor and that while here he also got some. Skelton, age eighty-five years, formerly of Lodi, Wis., passed away at the home of her daughter, Mrs. Frank Carver, 320 Cherry street, this morning at eleven o'clock. She leaves to mourn her loss one sister, Mrs. Lydia Sherwood of Gays Mills, Wis., and her three daughters, Mrs. Milo Cowles, Miles City, Montana; Mrs. Frank Carver and Mrs. Alice Hemmings of this city. Funeral Friday at ten A. M. at the home of Mrs. Carver. The remains will be taken to Lodi, Wis.

Mrs. Marion Lightizer.

Mrs. Marion Lightizer passed away at her home on Glen street this morning. An obituary will be published later.

Thomas Tracy.

The funeral of the late Thomas Tracy was held this morning at nine o'clock from the home of his brother Patrick Tracy, and at ten o'clock at St. Patrick's church. Regale high mass was celebrated with Dean Riley acting as celebrant. Father Pittman, Deacon, and Father Pierce as sub-deacons. Dean Riley delivered the sermon. A very large crowd attended the funeral and there were many beautiful flowers. Interment was made at Mt. Olivet cemetery. The pall-bearers were six nephews of the deceased.

John Pliske.

The funeral of the late John Pliske will be held Wednesday afternoon at two o'clock from the home of his sister, Mrs. Herman Preuse at 431 South Franklin street, and at 2:30 from St. Paul's German Lutheran church. Rev. H. A. Treu will officiate. Interment will be made in Oak Hill cemetery.

John Milton Mathews.

The funeral of the late John Milton Mathews was held this afternoon at 2:30 from the home on 116 S. Main street, Rockford. Rev. E. B. Beloit officiated. Interment was made at Oak Hill cemetery.

More workers are being employed each day and it is the desire of J. P. Clegg to have several hundred working at the plant as soon as the men can be secured. More men are needed and can be used, but regardless of the fact that there are at present not a hundred men working on the construction, the contractor is very optimistic and expects that the unit will be finished by January first.

With ninety per cent of the steel cut and fabricated and waiting in Milwaukee, it is certain that no delay will be occasioned by the shortage of steel. A steel erecting firm has noted J. A. Craig that they can send a crew of men to Jamesville within ten days and it is expected that the steel will arrive in Jamesville within a very short time.

No word has been received in regard to the building of the second unit of the factory or the erecting of the proposed foundry, but it is believed by several that the new unit will be built in the spring of 1919, as well as the foundry, which when completed will be the largest in the state of Wisconsin. It is claimed by many that with the completion of the new factory Janesville will be the leading steel working center of Wisconsin.

Will Meet: The members of the Rock County Past Noble Grand association will meet with the Orfordville ladies Thursday, Nov. 21, at Orfordville.

B. P. O. E.: Notice: Regular meeting of B. P. O. E. will be held this evening. All members please be present

**CHAPLAIN DESCRIBES
WORK OF KNIGHTS OF
COLUMBUS OVERSEAS**

Chaplin James J. Houlihan, of Scranton, Pa., attached to the Field Artillery, Second Division, who arrived back in New York recently on a special mission for Gen. Pershing after 10 months of active duty with the American Expeditionary Forces in France, and brought with him an interesting story of the dangers faced by Knights of Columbus secretaries in distributing the Knights' bounty to the men who were doing the fighting.

On one of his trips to the front lines Father Houlihan explained, he ran across a puffing river bearing the K. of C. insignia, loaded with cartons of cigarettes, and in charge of Secretary James O'Neill of New Jersey. Father Houlihan reported the secretary that a squad of German airplanes flying directly overhead were seeking to destroy the truck and its driver, presumably with the same civilized purpose that caused the German airmen to drop their bombs on Red Cross hospitals and ambulances.

"I don't care how hard they hit me," said Father Houlihan, "but O'Neill replied, "Let's go cross the river and start about again." So long as they don't spoil these cigarettes."

The cigarettes got up to the front line safely and were being smoked within an hour by the men of several American contingents.

Mrs. Ella Quinby returned on Saturday after an absence of several months spent in Madison at the Allian-

ce Center.

John Hammel and wife of Color-

ado, former local residents, are visit-

ing us in town and spent Sunday night with Mrs. Sarah Rote,

and expect to return to Beloit this (Monday) afternoon. Mrs. Nettie Curry will accompany them.

George and Frank Gahagan and Carl Hyatt and families come up from Beloit on Sunday evening and spent Sunday at the home of their parents.

Friends of Arthur Jones will be glad to know that he is improving rapidly and will soon be able to return to his home here.

Community memorial services were held in the hall on Sunday afternoon for Charlie Devens, who was killed, and for Harvey Gooch, who died of wounds received in active service in France, and despite the inclemency of the weather the hall was filled to overflowing, many being unable to get inside, and doubtless many more coming as it did, and many at home.

The pastor of the three churches conducted the service. The school children sang several selections. Mrs. White sang beautifully solo, "My Rosary," and Dorothy Snyder sang "When the Blue Star Turns to Gold," which were greatly appreciated by all, and the services were most impressive.

HEART AND HOME PROBLEMSBY ELIZABETH THOMPSON.
LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE.

Dear Mrs. Thompson: I am nine years old and am considered good-looking and a good dresser. I have a sister three years older than me who is very careless about her appearance, but she cannot understand why she does not have the men friends she does. She has as many clothes as she does, but she is always borrowing something of mine and returning it soiled or ruined. Both of us work and she has as much money as I have to spend. My parents always take part, and say I should be willing to help her to have men friends. They think I am selfish and want them all for myself. Do you think she has any right to wear my things such as white gloves and clean waists which I have ironed myself?

MILDRED.

No! Your sister should not wear

your clothes. Since she has as much money to spend as you, she should either keep her own clothes or go without. You ought to get a boy who will look and keep your choice things under lock and key.

Help your sister all you can and make her think you are really interested in her. If there is a bond of sympathy between you, you will get along better together.

Dear Mrs. Thompson: Before the United States entered the war I was keeping company with a man who works where I do. I went places with him often, but I did not love him. He was one of the first drafted and so he made a great impression on me in his uniform. I thought that I loved him, but now I am convinced that I was only fascinated by the uniform.

I have met another man whom I love dearly and he has asked me to marry him. I cannot do so while I am engaged to the soldier. What shall I do? Shall I write to him and ask him to release me?

BRINETTE.

Since you have discovered that you have made a mistake, it will be best

EVERYDAY ETIQUETTE

(Miss Reilly will answer in this column all questions on etiquette.)

Dear Mrs. Thompson: My daughter is 17 years old and she seems to be very much in love with a young man who is by no means her equal. He is handsome in a way, but he knows it. The second time he called he asked my daughter to kiss him good-night. I heard her refuse him, but I am worried nevertheless.

What can I do to make her enjoy several very good boys who would like her company? I am afraid she and her friends would not be so familiar on an early acquaintance. She is stubborn and will not listen to me when I urge her to give up the boy.

MRS. H. B.

Trust your daughter. Tell her what you consider best, but let her own good judgment guide her in what she does. Her love and the boy of the same type, she will soon discover the fact herself and will tire of his good looks. Do not argue in favor of the boy whom you know to be good, because it will make her all the more prejudiced against them.

Dear Mrs. Thompson: About six months ago the young man to whom I am engaged went to France in the army. Recently I have been very much worried over reports that many of our young men are marrying French girls and will not return to this country. Do you think he will come back to me? FLORENCE.

There are cases like that, but most of the men are anxious to get back if the man is untrustworthy you will be escaping an unpleasant situation if he does marry over there.

Dear Mrs. Thompson: When a young man is with other fellows and they pass a girl whom one of them knows, should he tip his hat although he has never met her? TOM.

Yes.

Dear Mrs. Thompson: We are two girls who go with boys who often take us to dances and refuse to dance with us and will give no reason why they do not. Shall we turn them down?

CLUB AND SHORTIE.

Do not go to dances with them when you know how they act. If you like the boy you might accept other invitations from them.

FOR THANKSGIVING DESSERT.

Mock Mince Pie Meat—Chop green tomatoes, measure three cups and drain well. Then add four pints chopped apples, two cups chopped onions, one cup and one-half cups raisins, one cup seedless raisins cut in halves, one-half cup finely chopped citron, three and one-half cups brown sugar, one and one-half cups vinegar, three teaspoons cinnamon, one teaspoon each cloves and mace, and two teaspoons nutmeg. Mix until it looks clear (about three hours), then add one cup butter. Seal while hot in glass jars.

Cracker Plum Pudding—Six common crackers, one quart milk, one cup raisins three eggs, four and one-half tablespoons butter, one-third cup sugar, two tablespoons milk, one-quarter teaspoon grated nutmeg, one-half teaspoon salt. Split and butter the crackers, allowing three-quarters tablespoon of butter to each cracker. Stone the raisins and place between the cracker halves, putting them together in their original form. Pour over the crackers the nutmeg scalded milk mixture until it looks clear (about three hours), then add one cup butter. Seal while hot in glass jars.

Pumpkin Pie—One and one-quarter cups dry pumpkin, one teaspoon corn starch, one-half cup brown sugar, one cup rich cream, two tablespoons corn syrup, one-half cup brown sugar, one cup rich cream, two tablespoons melted butter, one-half teaspoon ginger, one teaspoon cinnamon, one-half teaspoon salt. Beat the eggs slightly. Add to the milk. Mix the other ingredients thoroughly and bake with one crust.

Prepare Pumpkin—Cut pumpkin in half, remove the seeds and bake, open side down. When soft, scrape from the skin and mash.

Mincemeat—One pound suet, eight pounds dark tart apples, four pounds boiled beef, three pounds seeded raisins, two pounds currants, one pound brown sugar, one quart corn syrup, one pint brandy, one pint Madeira wine, two quarts sweet cider, one pint boiled cider, one-half pound chopped citron, one-half teaspoon salt, one tablespoon ground spices, one tablespoon cinnamon, one tablespoon cloves, one tablespoon allspice, four tablespoons cinnamon, two nutmegs, grated. Chop the suet, apples and beef, and add all the ingredients except the brandy and wine. Heat thoroughly, cool, add the brandy and wine. Cover tightly and keep cold but do not freeze. Bake in a rich double crust.

SUGGESTIONS.

When Sugar is so hard to get, for icing a cake go to the nearest candy store and get 25 or 30 cents worth of chocolate drops. Put them in double boiler and boil until they are all melted; then heat all to one temperature, then beat all together long enough to cool your cake.

When Baking apple pie, if the apples should refuse to cook up as you think they should, lay a pie tin or aluminum foil covering that will not crush the pie over the top, and note how nicely they will cook up.

To Clean Comb—Boiling a little borax in warm water will successfully remove dirt from combs and brushes without having to brush them; just rinse and dry.

DOUBBLE-HANDED CORK PULLER.

Said to do the Work Better Than the Usual Screw.

A newly designed cork puller looks like a pair of scissors which has been ruined by some thoughtless person endeavoring to use them to perform the functions of a screw driver. It has the usual pair of handle loops, but the points are bent outward.

The gayety of the dinner table drew out John's further observation and Edith was glad to have her mind dragged from the problem that absorbed her days—and often nights. Fleetingly she resolved to have a talk with brother Ned, and under the cheering influence of Edith's excellent cheer-cut she at last dismissed the whole trouble from her mind.

But Edith shot him a glance that put the emergency brake upon his cynical utterance.

"How can you, John, when you've actually seen Ned's invention work, and work perfectly?" she whispered indignantly.

"That's all right, dear," he defended, "but there's bound to be a slip between the invention and the income. Ned's got to show me. It would be like him now to go phialandering around this empty-headed bit of stuff and forget all about the blooming heater. He's a smart boy all right. Edie, I don't mean to knock him, but to Ned the fun is all in inventing. He doesn't like the commonplace crudgery of getting the things on the market."

The same thought occurred to John, apparently, for he nudged his wife and said with a curling lip, "That's about all we need, now. Edie, you must get in late unto himself a wife for us to sup."

"Why, you'll have to fast, too," said Lucille placidly. "It will make you better and will put flesh on your frame."

"But you said that it would make me thin," I interrupted.

"It works both ways," supplied Lucille.

"Me fast?" snorted Bopp. "I guess not—while I'm within two miles of the mainland! Is the motorboat in running order?"

"Why, yes, I guess it is," Lucille replied doubtfully. It is always well to be doubtful about a motorboat. "But there is no one here who can run it."

"Hub!" grunted Bopp unphased.

"I guess I can run it. I don't like to talk about myself, but I have yet to

meet the gasoline engine that does not cover at my approach. If there's a spark and if there's any juice in the

gasoline tank she's got to go."

We all went down to see him off and sat on the dock until he got everything ready—all of us, that is, except Mrs. Green, who complained of a headache, poor old lady, and decided to stay in bed.

I did not help Bopp on his way much, as I should have liked to, because I know my limitations when it comes to motorboats. Now, with an automobile I am right at home. When

STOMACH TORTURE GONE; FIRST SLEEP IN THREE MONTHS

Mr. Hendricks Was Ready to Give Up, Then He Found How to Regain Health.

"The best sleep I had had in three months was on the second night after I began using Milks Emulsion. I had had a bad case of stomach trouble and constipation for years and was ready to give up. I was troubled with gas, distension, bloating after eating, gnawing sensation and cramps in the stomach. Milks Emulsion was a God-send to me and I want every one to know about it because it will cure cases like mine." —E. Heinrichs, 702 S. Alabama St., Indianapolis, Ind.

Mr. Hendricks and thousands of other former sufferers from cases of stomach trouble, bowel trouble, have found that Milks Emulsion gives prompt relief and real lasting benefit.

Milks Emulsion is a pleasant, nutritive food, non-irritating medicine. It restores healthy natural bowel action, driving away with all need of pills and cathartics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to run-down nervous people and invalids, among adults in many cases of tuberculosis of the lungs, chronic stomach trouble and constipation are promptly relieved—usually within a week. This is the only cold medicine made and sold that is water soluble like ice cream. A ten-cent wonder medicine for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion. Take a spoonful three times daily, or as often as you like. Take it according to directions and if not satisfied with the results, your money will be promptly refunded. Price, \$1.00 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold and guaranteed by J. P. Baker.

AMERICANS HAVE STRONG NERVES

Nervousness and Nerve Troubles on the Decline

"Nothing wrong but your nerves", is a saying that is fast dying out in this country. While nerve trouble is no new disease, a leading nerve specialist remarked recently that man and woman might better break a leg than have a shattered nervous system.

Overwork and worry drain the nerve cells of their reserve strength and food, and then follows the sleepless nights, indigestion, poor appetite, impaired digestion and general nervous break-down.

The thing to do in such cases is to consult a doctor and their patients who know from their own experience what is best. Phosphated Iron. They know that a few weeks' regular use of this nerve food and red blood builder will strengthen and brace up the whole nervous system, because it supplies the vital tissue that has been worn-out nerve cells, phosphated iron, in a form easily and quickly absorbed; no one happy user said: "You can almost feel it taking hold of your nerves and food, after which time you feel like a new person; life seems a pleasure and worth living once again."

In every section where Phosphated Iron has been used there has been a great decrease of nerve troubles and it will prove welcome relief to any sufferer. You can bank on it for results, pure and simple.

To insure the genuine Phosphated Iron we have put out in capsules only, do not take pills or tablets, insist on capsules.

PETEY DINK—THERE'S SOMETHING WRONG, PETEY GOT OFF TOO EASY.

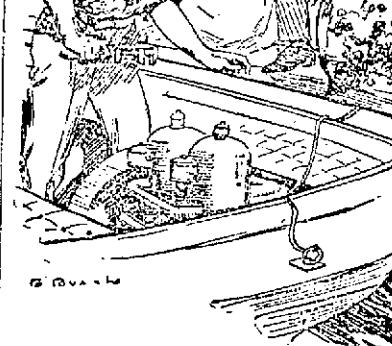

C. A. Voight

a car refuses to do what the advertisements claim for it, all you need to do is to get out the tool kit, jack up one of the axles and telephone the nearest garage. Sometimes it isn't even necessary to use the jack, but it looks more professional and impresses your passengers with your mechanical skill.

Bopp looked the engine over and sniffed.

"I did not help Bopp on his way much, as I should have liked to, because I know my limitations when it comes to motorboats. Now, with an automobile I am right at home. When

STOMACH TORTURE GONE; FIRST SLEEP IN THREE MONTHS

After rummaging around in the locker for awhile he got out a collection of tools and began to remove a steel plate from the engine.

"In order to make it easier to understand the inner workings of the engine," I explained to Lucille, "he is going to take it apart so that you may see each piece distinctly. I wonder if he knows that he spilled some cylinder oil in that place where he is now sitting. No matter. To resume our lecture, that thin piece of tubing covered with black grease is the crank shaft. No; I am mistaken. That is the man's leg. The crank shaft is that other thing not quite so thin and shapeless. Move your leg a little, will you, Bopp, so that Lucille can tell which is the crank shaft?"

He buried the receiver into the hook. "Don't be cross," she said soothingly. "Think pleasant things. You've got to stay. Make the best of it."

"Think pleasant things! I do! I think of ham and eggs. Can you suggest something pleasanter? How far is it to the mainland?"

"Two miles."

"And I can only swim a mile and a half."

"Why don't you start anyway?" I said.

"Hush!" warned Lucille; then, turning to Bopp, who was headed for the door, "Where are you going?"

(TO BE CONTINUED.)

Dinner Stories

Dr. Llewellyn Rainey, director of the overseas war library, was entertained at dinner by a group of John Hopkins students on the eve of his departure for the front.

A very rich young sportsman, af-

ternoon.

He arose from his imitation of a kangaroo about to jump down a mine shaft and took the wire from her fingers without comment. His feelings, whatever they were, he did not dare trust to speech. There was something majestic about the repression of the man that forbade comment. In palpitating silence he attached the wire to a place which seemed to be made for it, reassembled the engine, wiped off his hands and grasped the crank. He turned it once easily, and, "sing," the motor got down to business like a clock!

Lucile hastily scrambled out of the boat.

"Let her go!" Bopp yelled, taking hold of the wheel in a pose a good deal like a viking save for the grease on his trousers. (Did Vikings wear trousers? My memory is at fault.)

"Monty," he commanded, "loosen that line there, and when the engine starts throw it aboard so I won't have to leave the steering wheel."

I did as he asked.

He turned the flywheel over painfully. There was a sort of wheezing sound, but nothing resembling the regular explosion of a marine motor in the flush of perfect health feeling its oats.

"The engine is cold," he announced.

"The principle of the gasoline engine," I lectured glibly to Lucile, "is easily comprehensible to the intellect of a boy of ten. It consists simply of mixing gasoline in the thing-a-majig which is drawn into a what-d'you-call it in the engine, and then when an electric spark is applied from the dingbat there is an explosion. See—he turns the wheel over—this draws the charge of gas into the engine—the flush of perfect health feeling its oats."

"The engine is cold," he announced.

"The other way!" screamed Lucile. "Starboard is on your right side!"

She was too late. The boat stopped suddenly. Bopp hastily took an impression of the steering wheel on the pit of his stomach.

I yelled to Bopp, "Do you want any help?"

"No," he replied, bowing to me unintentionally from pain, holding one hand on his belt line where the wheel had struck him.

To Lucile I explained in as loud a tone of voice as I could command: "It is a curious thing about many deep water sailors that they cannot tell their left and right hands apart. Say 'port' or 'starboard' to them and they get you at once."

CHAPTER III.

Marooned.

BOPP managed to make the engine run again and started to back off from the bar when the propeller wheel struck something, and proceedings ended.

That was the absolute finish of the performance for that day. He could not turn the engine over again, even by hand, and an investigation disclosed that the shaft was hopelessly tangled in some heavy wire which the propeller had picked up out of the sand. Bopp discovered this by sticking his head under water over the side of the boat.

"You might as well come ashore," said Lucile. "We'll have to get a mechanic."

So Bopp came ashore by wading in rather chilly water up to his waist. Considerable of the bloom was rubbed from his usual natty appearance when he clambered on the dock, besmeared and dripping.

"Welcome to the Fasters' club!" I greeted him. "I would baptize thee as a brother in the Aqua Pura fraternity, but I see there is no need. We'll go up to the house and give you a nice drink of water to warm you up after your chill."

"Oh, dry up!" snapped Bopp impatiently.

"That's impossible," I retorted. "The earth itself is over two-thirds water, and I stand up considerably higher than that."

Bopp now had a smudge of dark grease on his light trousers, had worn a blister on the palm of his hand and had used up a collar completely. He opened a valve on top of the engine, snatched suspiciously and looked wise.

"It's flooded," he snorted.

"I can sympathize with it," I said finally.

Why Putter With Corns? Use "Gets-It"

Common-Sense, Simple, Never Fails.

You can tear out your corns and suffer, or you can peel off your corns and smile. The joy-peeling way is the "Gets-It" way. It is the only happy, painless way in the world. Two drops

"Takes the Drop" on That Corn—Use "Gets-It" and the Corn is a "Goner!"

of "Gets-It" on any corn or callus dries at once. The corn finally loosens off from the toe so that you can peel it off the heel. The piece, however, remains jessily like peeling a banana. "Great stuff." Wish I'd done that before."

There's only one corn-peeler: "Gets-It." Toes wrapped up with the irritating salves, it's all a barbarity.

Toes wounded by razors and knives, that's butchery, ridiculous, unnecessary.

"Gets-It" is the liberty-way—simple, painless, always sure.

Take no chances. Get "Gets-It".

Don't be insulted by imitations. See what you get. Get "Gets-It".

It's the guaranteed, money-back

self-cure.

It costs but a trifle at any drug store.

Mr. E. Lawrence & Co., Chicago, have sold in Janesville, and recommended it as the world's best corn remedy by Smith Drug Co.

FINE FOR RHEUMATISM**Musterole Loosens Up Those Stiff Joints—Drives Out Pain**

You'll know why thousands use Musterole once you experience the relief it gives.

Get a jar at once from the nearest drug store. It is a clean, white ointment, made with the oil of mustard. Better than a mustard plaster and does not blister. Brings ease and comfort while it is being rubbed on!

Musterole is recommended by many doctors and nurses. Millions of jars are used annually for bronchitis, croup, stiff neck, asthma, neuralgia, pleurisy, rheumatism, lumbago, sprains and aches of the back or joints, strains, sore muscles, bruises, chilblains, frostbitten feet, colds of the chest (it often prevents pneumonia), 30c and 60c jars; hospital size \$2.50.
